

"Watch the waves breaking across the reef crest some 100 yds offshore from the rooms above the main lodge - the Pelican's Pouch."

A total of 13 rooms in either the second floor of the Pelican's Pouch main lodge or in the Brown Booby tucked in the trees on the east side make these rooms a great choice for a comfortable stay at a lower rate.

- Rooms have a minimum of two beds with some having three – Queen, doubles and twins based on your preference.
- Private bath with showers (hot and cold water)
- East and west facing verandahs with hammocks.

At the southern end of South Water Caye, all our facilities utilize "green" technology in the form of: solar powered lighting, flash heaters for showers, and environmentally friendly waste facilities including composting and waste transfer back to the mainland for disposal.
