

Complimentary kayaks line the shore, available at a moment's notice for a quiet trip. Paddle the length of the island or float out to the reef a few yards offshore.

- Quietly slide over grass beds teeming with thousands of silvery sprat being chased by schools of jack or a lone garfish.
- Check out the activity onshore (or the lack thereof!)
- Peer through crystalline waters at gigantic brain coral and colorful fish in the patch reefs

Try a single person kayak or share a double kayak for half the work and twice the fun.
